Timothy Olo

Community Health Worker · Goroka Nursing College

> *"My clear aim is to become a qualified health worker, and to serve my community where medical services are limited."*

A
GRADE 12 CHEMISTRY
PNG's highest grade, usually reserved for the top of the class. He also earned Bs in advanced math and physics.

Accepted
GOROKA NURSING COLLEGE
Offered a place in its community health worker program.

5
UNIVERSITY APPLICATIONS
Submitted for 2027 through PNG's national application system.

His story

Timothy is from Korepa, a village in the Eastern Highlands of Papua New Guinea where Clean Water Help works. He finished high school in 2025 through PNG's distance-learning program, taking a full load of math and science. The fees for his training would be a heavy burden on his family.

What he will do with the training

- Return to Korepa as a health worker.
- Help strengthen Papua New Guinea's health sector.

His promise

- Dedicate himself fully to the academic and practical training.
- Stay committed and hardworking until he qualifies.

SPONSOR TIMOTHY FOR THE 2027 SCHOOL YEAR

Statement of Purpose and Need

Timothy Olo · In his own words

To Clean Water Help: I respectfully ask to be considered for this scholarship.

Who I am

I am Timothy Olo, a recent Grade 12 graduate. In 2025 I completed my secondary education at Pimaga VET-FODE Centre in Kutubu, Southern Highlands Province. My subjects were English, advanced mathematics, physics, biology and chemistry. They gave me a strong foundation in the sciences and in the communication skills a career in health requires.

My applications

I am applying through the national online application system for the 2027 academic year, and I am registered to sit the national tertiary admissions test on 20 October. My choices, in order, are Pacific Adventist University, Lutheran University, the University of Goroka, Highlands Region Nursing College and Simbu Teachers College.

My acceptance

This year I also applied to Goroka Nursing College. I met all the entry requirements and was issued an official acceptance letter. This has strengthened my determination and confirmed that nursing and health-related training is the path I want to follow.

What I will do

My clear aim is to become a qualified health worker. After I complete my studies, I intend to return and serve my community by providing quality, compassionate health care, especially where medical services are limited. I want to improve the health and wellbeing of the people around me and contribute to the development of Papua New Guinea's health sector.

Why I need help

I am committed, hardworking and ready to dedicate myself fully to the academic and practical training that health programs demand. A scholarship would relieve the financial burden on my family and let me focus entirely on my studies.

Thank you for considering my application.

Timothy Olo

KOREPA, WARD ONE, DAULO · EASTERN HIGHLANDS, PAPUA NEW GUINEA

Why We Recommend Timothy

A note from Clean Water Help

Timothy wrote one of the strongest statements we received for 2027. He knows exactly what he wants to be: a health worker in his own community.

He is not waiting to be chosen

Timothy has applied through PNG's national university system and registered for the national admissions test, and separately he won a place at Goroka Nursing College. Registration there opens in February 2027, and three-quarters of the fees are due before he can enroll. A sponsor now means he starts on time.

Clean water needs health workers

A local health worker is the person who treats the illness that unsafe water causes, and who teaches the hygiene that keeps it from coming back. Clean Water Help builds water systems in villages like Korepa. Timothy wants to be that health worker.

> *"I am motivated by the desire to improve the health and wellbeing of the people around me."*
